

To insure maximum flexibility, linear guide rail systems are made from the components listed below. Depending on the requirement, the appropriate components can be supplied in the desired quantity. Because the linear guide rails and the cam roller carriages must be assembled separately in many applications, these items will be supplied unassembled and packed separately.

Upon request, fully pre-assembled linear guide rail systems including rails GN 2422 and cam roller carriages GN 2424 are available.

<p>Cam Roller Linear Guide Rails GN 2422 → Page 1921</p>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <p>Type UT</p>  <p>Floating bearing rails</p> </div> <div style="text-align: center;"> <p>Type UV</p>  </div> <div style="text-align: center;"> <p>Type XT</p>  <p>Fixed bearing rails</p> </div> <div style="text-align: center;"> <p>Type XV</p>  </div> </div>
