Specification

- Aluminum
 - plastic coated
black, RAL 9005, textured finish ● **SW**
 - anodized, natural color ○ **EL**
- End caps
Plastic
Technopolymer (Polyamide PA)
black-gray
- Lettering block (GN 430.1)
Insert groove supplied with:
 - paper strip 200 g/m², width 19,5 mm
bright white, age-resistant
 - PVC hard film
transparent
- Plastic characteristics → Page 1483
- RoHS

On request

- Special lengths
- single paper strips / film strips

Information

Typical applications for ledge handles GN 430 / GN 430.1 include swivel or sliding doors on protective doors and equipment. They are also suitable for use as drawer handles.

The screw channel for screw sizes M6 (extruded aluminum) allows an optional number of fixing screws in any position within the dimension l_2 .

Any length of the aluminum profile can be delivered, and single end caps can also be delivered. Even a small quantity of special lengths can be delivered. **Special lengths** are easily realised because the ledge handle needs no further machining when mounted.

In the design with lettering block, the end cap when delivered is mounted on one side such that the paper / film strip supplied can be lettered and pushed into the groove provided.

How to order (without lettering block)
