Specification

- Plastic
Technopolymer (Polyamide PA)
 - glass fiber reinforced
 - temperature resistant up to 110 °C
 - black-gray, RAL 7021, matte **● SGA**
 - white, RAL 9016, matte **○ WSA**
- Plastic characteristics
→ Main Catalogue Page 1483
- RoHS

Information

Cylindrical knobs GN 519.2 are manufactured from an antibacterial plastic.

Adding a silver-based substance has created a natural active agent that helps to prevent the growth of bacteria. Even after repeated cleaning with soap or solvent, the antibacterial effect of this additive will not diminish.

With these properties, the handles are the perfect choice for use in medical engineering, in the food and the pharmaceutical industry, and in general wherever hygiene is of great importance.
