

**Rost frei** Inoxy Stainless Steel

- 2 Type**
- M** Forked clamping arm, with two flanged washers
  - MC** Forked clamping arm, with two flanged washers and clamping screw GN 708.1
  - O** Solid clamping arm, with clasp for welding

**Operating principle**

\* Size 25 only available as type M and MC

**Specification**

- Steel
  - Case-hardened steel C10
  - Zinc plated, blue passivated
  - Bearing pins tempered
  - Bearing rivets (for size 355 and up) case-hardened
- Stainless steel AISI 304 **NI**
- All moving parts  
Lubricated with special grease
- Solid designed plastic handle  
Red, oil resistant
- Clamping screw GN 708.1, type A
  - Steel, zinc plated, blue passivated / Stainless steel AISI 304
  - Rubber thrust pad 85 Shore A
- *Stainless Steel Characteristics* → Page 2166
- **RoHS**

**Accessory**

- Clamping Screws → Page 810 ff.
- Holders for Clamping Screws GN 801 (for Type M) → Page 815
- Holders for Clamping Screws GN 809 (for Type O) → Page 818
- Clamping Arm Extenders GN 801.1 (for Type M) → Page 816
- Clamping Arm Extenders GN 801.2 (for Type M) → Page 817
- Clamping Arm Extenders GN 809.1 (for Type O) → Page 819

**Information**

Toggle clamps GN 820 work according to the toggle principle, lever and clamping bar move in the opposite direction. They require less space for the clamping action. In the clamped position the operating lever is in its horizontal position.

Toggle clamps in the with forked clamping arm, with two flanged washers (type M) can accommodate an application specific clamping screw. A clamping screw with neoprene rubber tip is also included for type MC.

Toggle clamps in the type O version can either be utilized by welding the clasp which can then accommodate an application specific hold-down fastener component, or by utilizing the bar in conjunction with the GN 809 holders for clamping screws to hold the work piece in place.
