Specification

Wheel tread

- Natural rubber (NR)
- Black
 - Hardness 70 Shore A

Wheel core

Aluminum die casting

Operating temperature -20 °C to +70 °C

RoHS

Wheels GN 22875 are used in industrial and public indoor and outdoor areas for moving medium weight carts, for example.

The wheel tread is suitable for all floor types. It runs quietly and is gentle on floors while offering good obstacle clearing and vibration damping.

The low wear on the ball bearing increases the service life, and the mounting to the inner ring can be accomplished with zero axial backlash.
