Specification	
Wheel tread / Wheel core	
Plastic, polyamide (PA)	
• Single part	
• White	
• White for type A	
• Blue for type AB	
• Hardness 70 Shore D	
Operating temperature -30 °C to +80 °C	
RoHS

Wheels GN 22892 are used in industrial and public indoor areas for moving transport carts, for example.

The wheel tread offers low rolling resistance as well as good wear and tearing resistance.

With bearing type K, the low wear on the ball bearing increases the service life, and the mounting to the inner ring can be accomplished with zero axial backlash.
