Specification

Handle

- Base body
Plastic, Polypropylen (PP)
- Softline coating
Elastomer (TPE) 70 Shore A
 - Chemically bonded with base body
 - FDA compliant plastic granulate
 - Operating temperature 0 °C to +80 °C
 - Black, matte finish

Spindle

Steel
Zinc plated, blue passivated

RoHS

Revolving mushroom shaped handles GN 597.1 are in general used for such applications when a pulling action is involved on handwheels or cranked handles.

The Softline coating makes the revolving mushroom shaped handles particularly user-friendly and ergonomic.

The soft, slip-proof contact area improves the contact both in hot (hand perspiration) and in dry ambient conditions, in the event of oily surfaces and even high or low temperatures.
