

- 1 Type**
- O** Open
 - G** Closed

Application example

2 h	3 Length l		b	t	Packaging unit
40	1500	3000	8	1,5	2

Specification

Stainless steel AISI 304 **4** NI
RoHS

Retaining profiles GN 6473.1 are required to fasten side guide segments GN 6473. Connecting elements GN 6473.2 are used for the installation on conveyor sections and the like.
Retaining profile type G can be installed without alteration. For type O, the user must create the bores as needed.
The retaining profiles are supplied in pairs and can be shortened as needed.
