

### Example of application

Tubular handles GN 666.5 / GN 666.7 allow the mounting of a pair of handles in opposite position. This method could be used on doors (double handle).

Generally a modification of the thread length  $L_4$  is required for this. The included threaded pin DIN 913-M8x25-A2 of the mounting stud needs to be replaced by a longer threaded pin, too.

Handles with a modified thread length  $L_4$  are available on request.
