DIN 7991-M5x16
Stainless steel
Polyamide coating on head

Grub screws for type C
Stainless steel
Molded-in

Protection class IP 66

RoHS

Gripping trays GN 7330 can be easily and quickly installed from the front using countersunk screws or from the back with grub screws.
Gripping trays with housing seal (identification no. 2) prevent the penetration of any dirt or liquids into the housing interior. Type A is supplied with four additional countersunk sealing screws, which feature a polyamide coating on the head to create a tight seal.
