Specification

- Stainless steel AISI 304
 - Matte shot-blasted **GS**
 - Electropolished **EP**
- Housing seal
 - Rubber, glued
 - NBR, black (identification no. 2)
 - Silicone, blue (identification no. 3) FDA compliant
- Countersunk sealing screws DIN 7991 M5x16 (Type A, identification no. 2)
 - Stainless steel
 - Polyamide coating on head
- Grub screws (Type C)
 - Stainless steel AISI 304
 - Welded
- Protection class IP 66
- *Stainless Steel Characteristics* → Page 2166
- RoHS

4 Information

Stainless steel gripping trays GN 7332 can be easily and quickly installed from the front using countersunk screws or from the back with grub screws.

Stainless steel gripping trays with housing seal (Identification no. 2 and 3) prevent the penetration of any dirt or liquids into the housing interior. The FDA-compliant version also allows use in areas where food or pharmaceutical products are produced.

Type A is supplied with four additional countersunk sealing screws, which feature a polyamide coating on the head to create a tight seal.
